

kamiVision

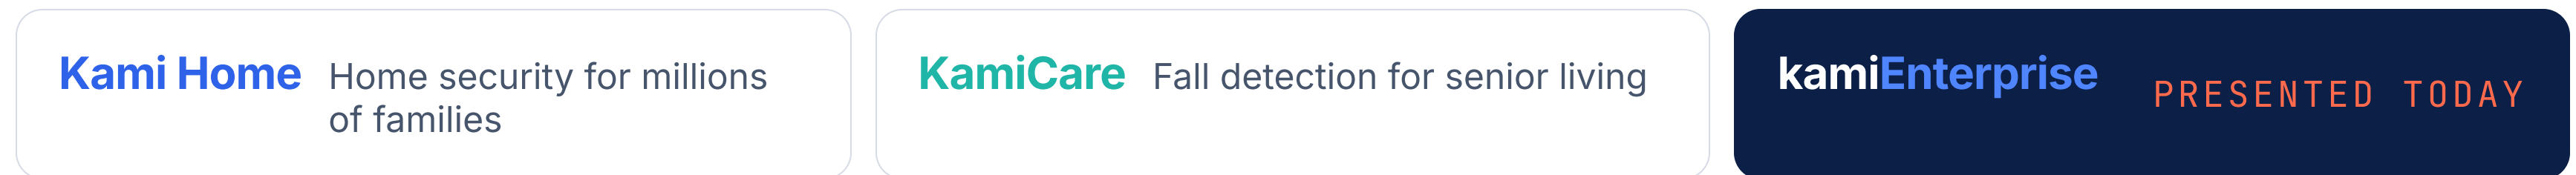

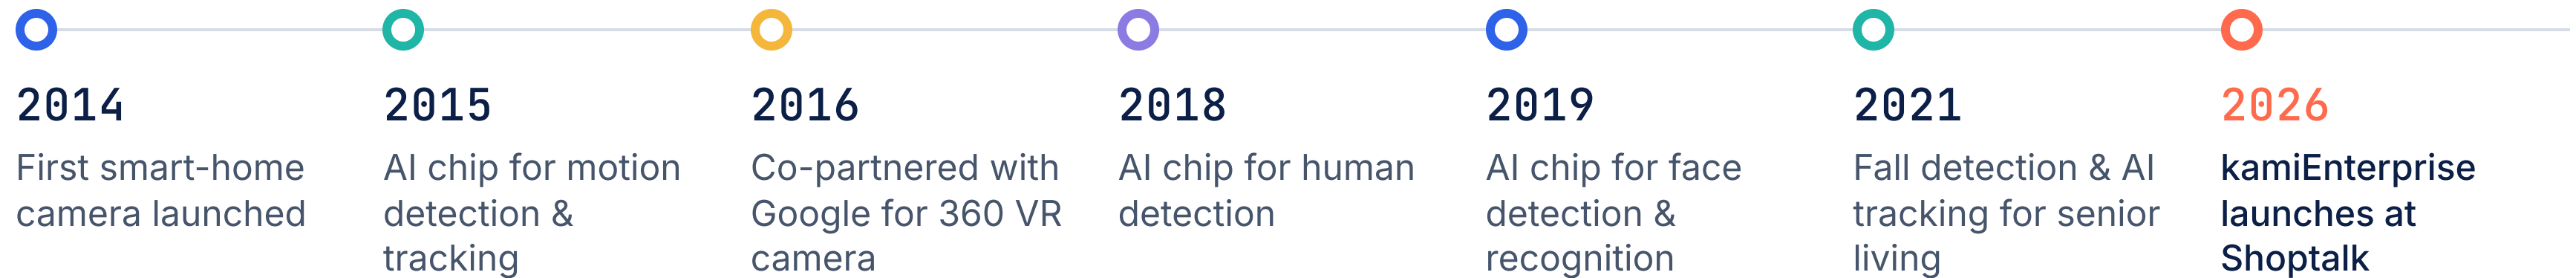

See your **store** the way
your **customer** does.

AI on the cameras you already have. Cloud
or edge. Tuned to your store.

— ONE AI VISION PLATFORM • TEN YEARS IN THE MAKING

Milestones & Achievements

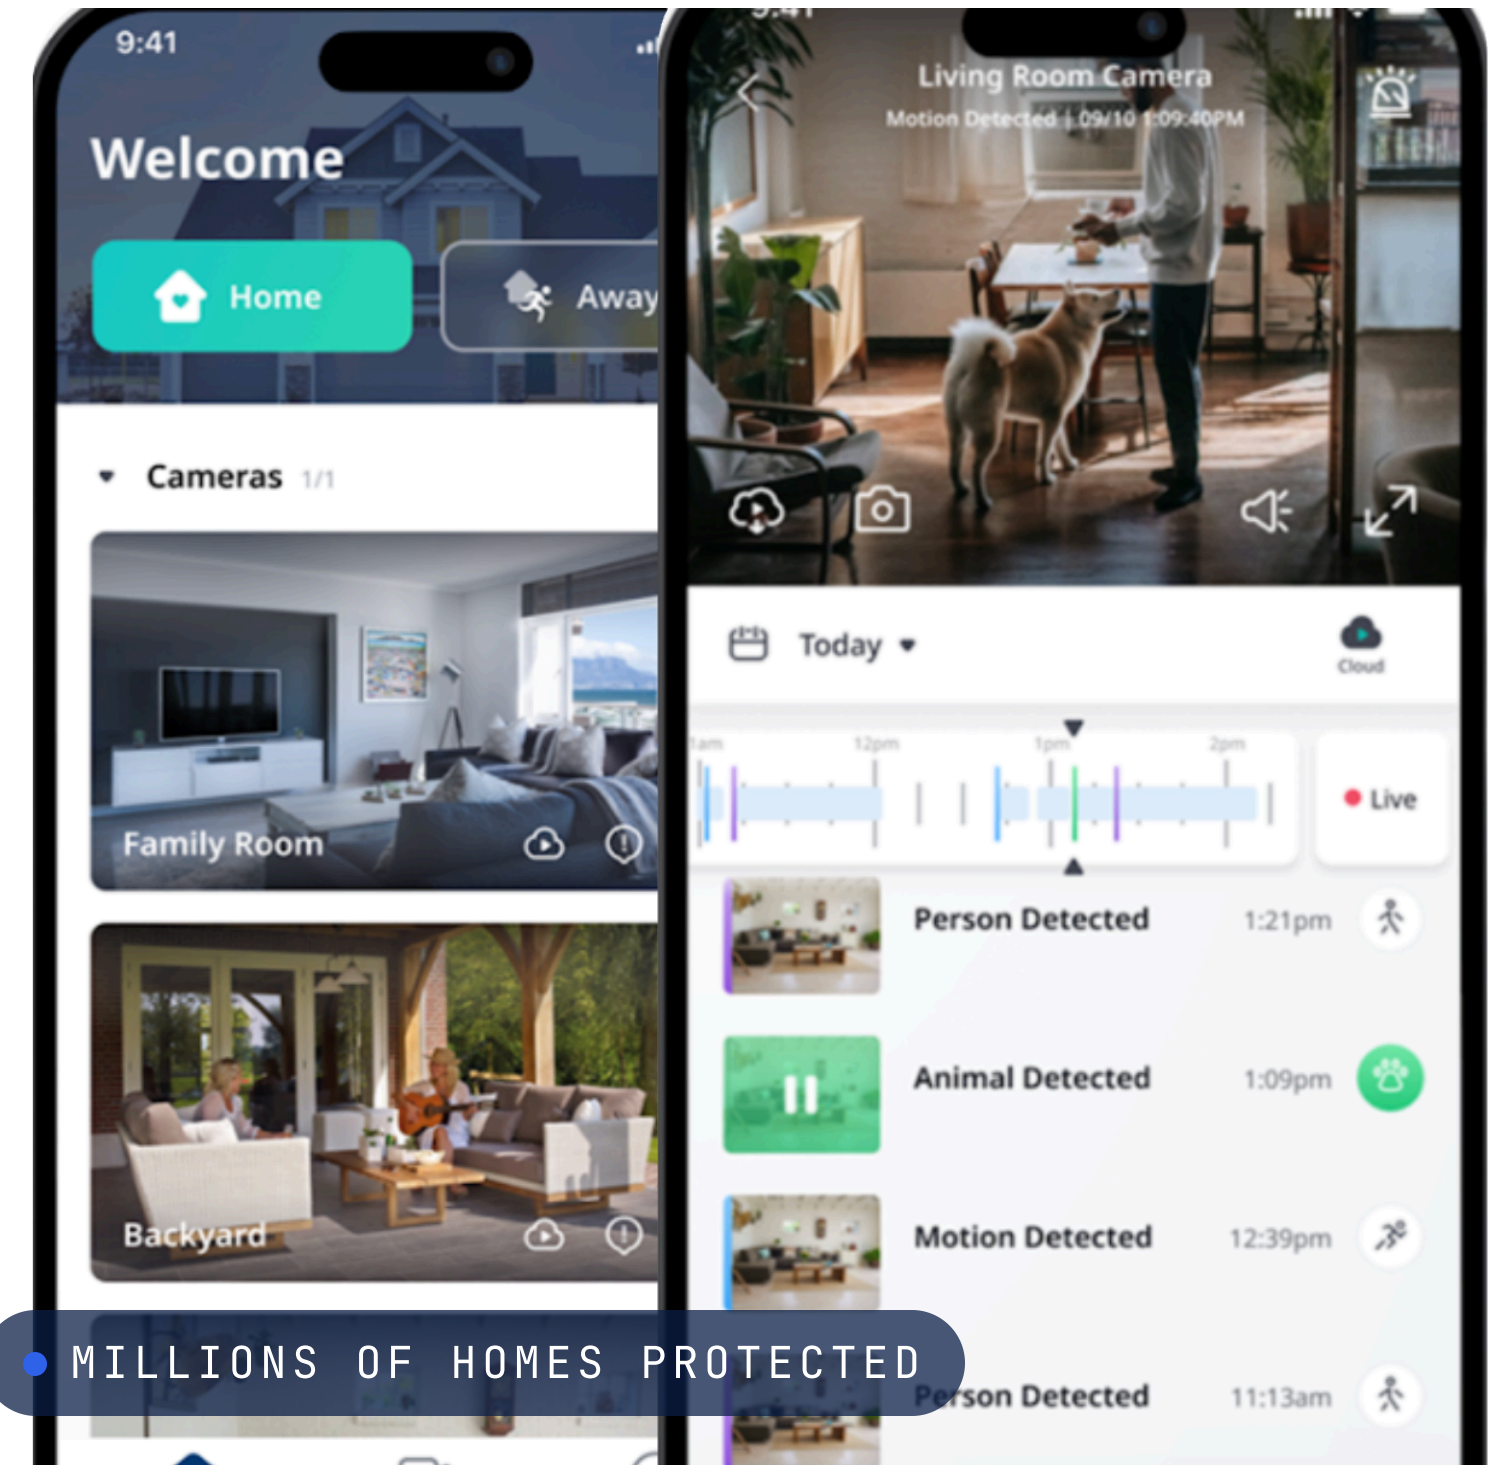

— KAMI HOME · CONSUMER

Home security for millions of families.

Kami Vision started in the home. Today our cameras protect millions of families across **120+ countries** — detecting people, pets, packages and the motion that matters. Always-on, privacy-respecting, and so easy to set up anyone can. This consumer business funds and proves the AI we now bring to retail.

- Fall detection
- Real-time threat alerts
- Secure cloud video
- Pet & vehicle detection

— KAMICARE · SENIOR LIVING

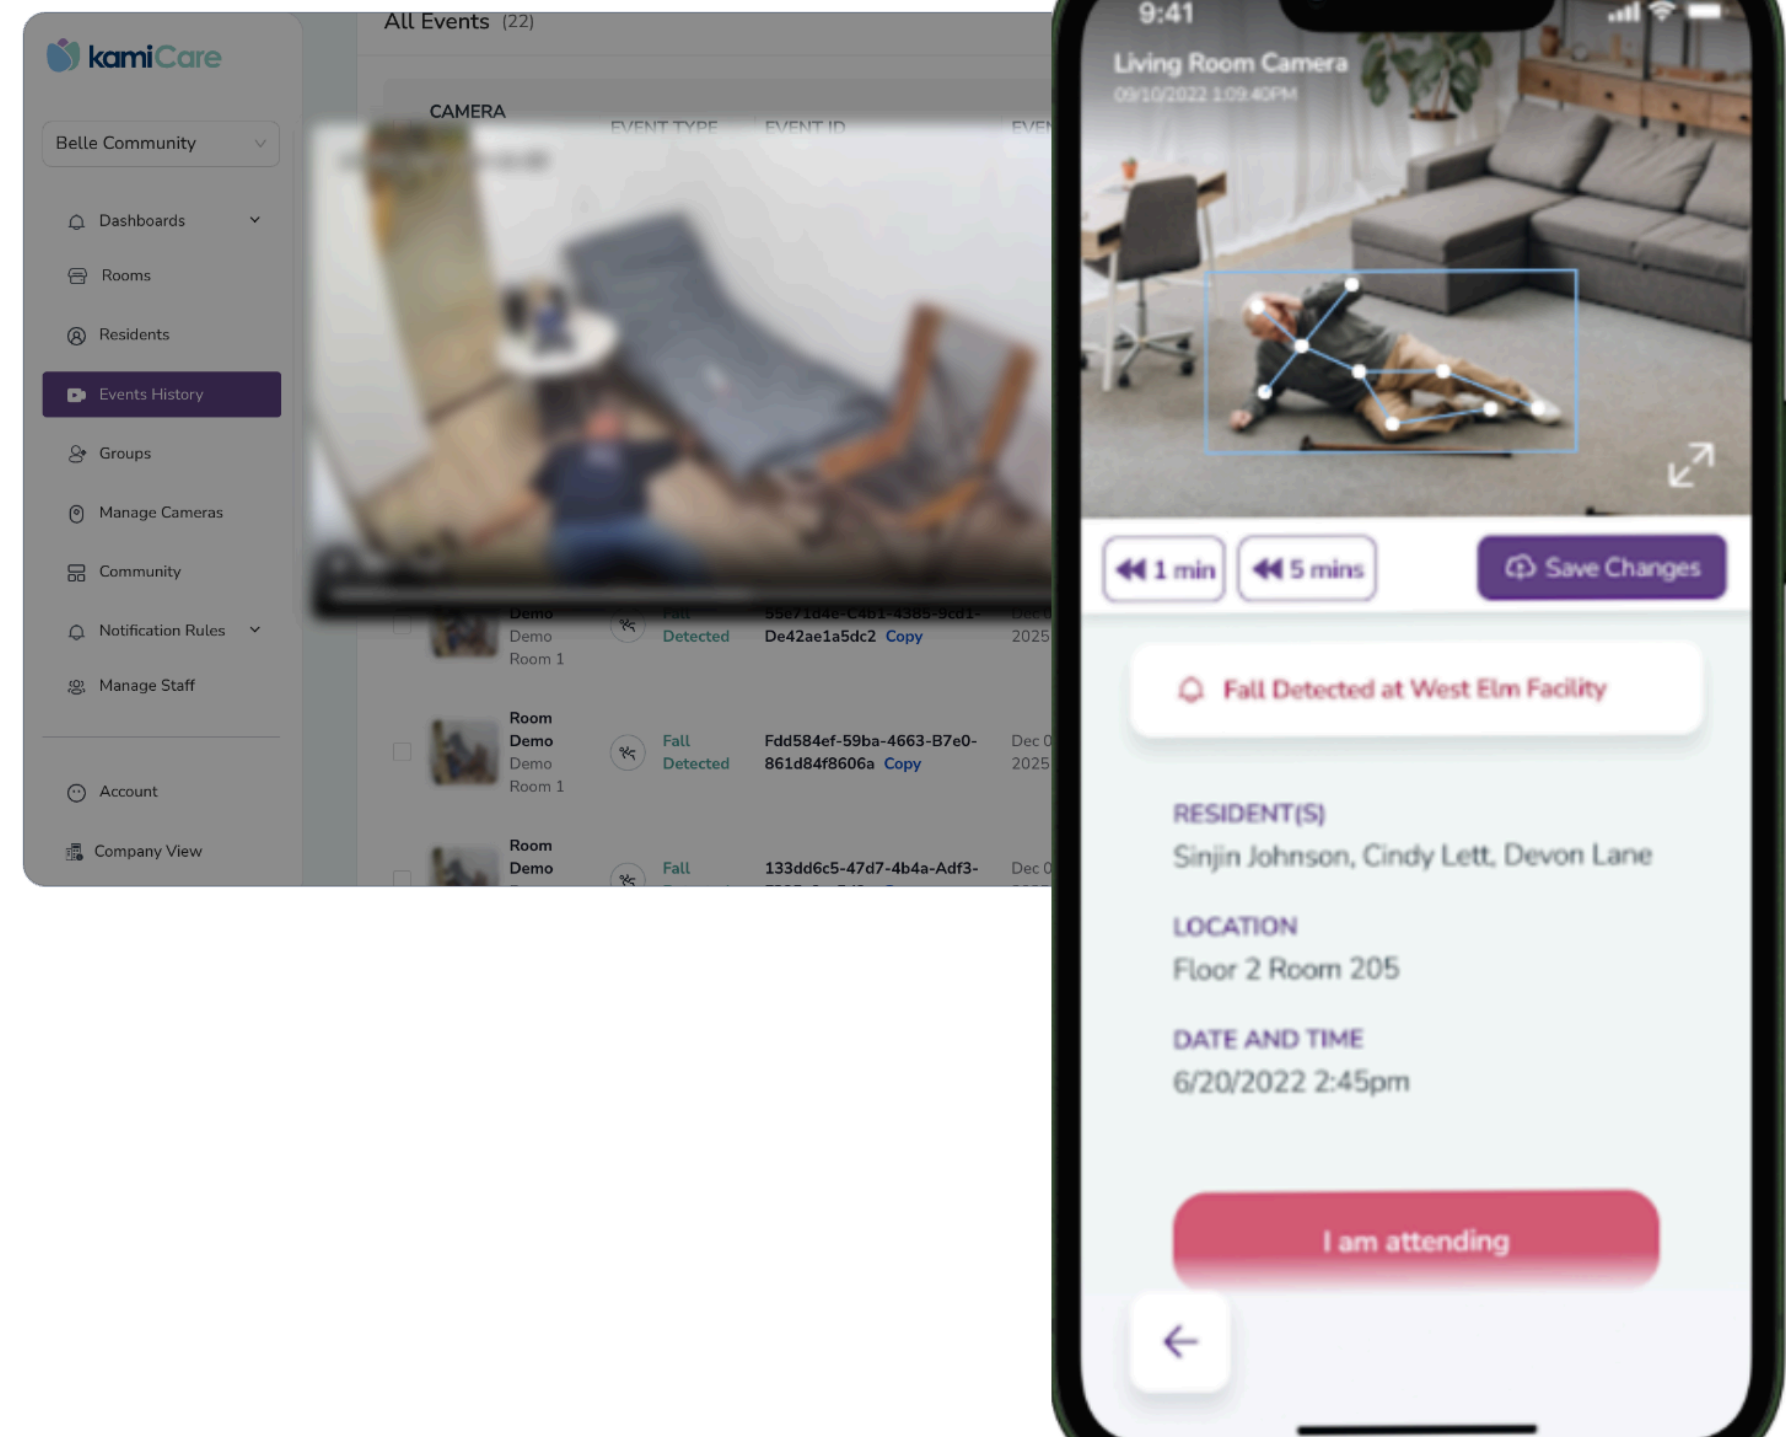

Falls happen in seconds. Help can't be slower.

KamiCare brings the same Vision AI into senior living and skilled nursing. Cameras in resident rooms detect falls and bed-exits in real time — **protecting privacy and dignity of residents and patients.** We read posture, motion and zone, not identity. Trusted to keep residents safer, calmer and more independent for longer.

● Fall detection

● Bed-exit alerts

● Trusted by senior living

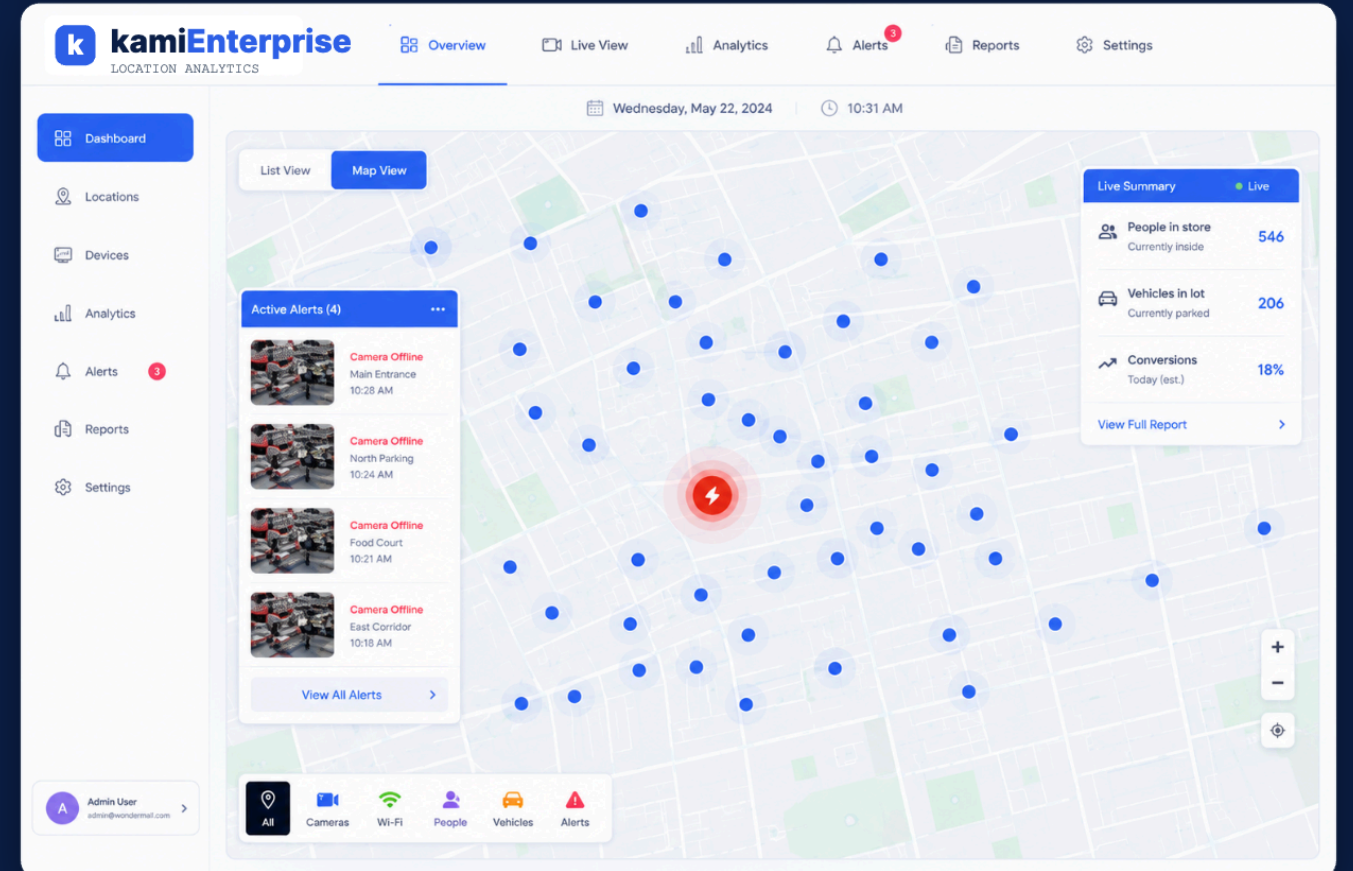

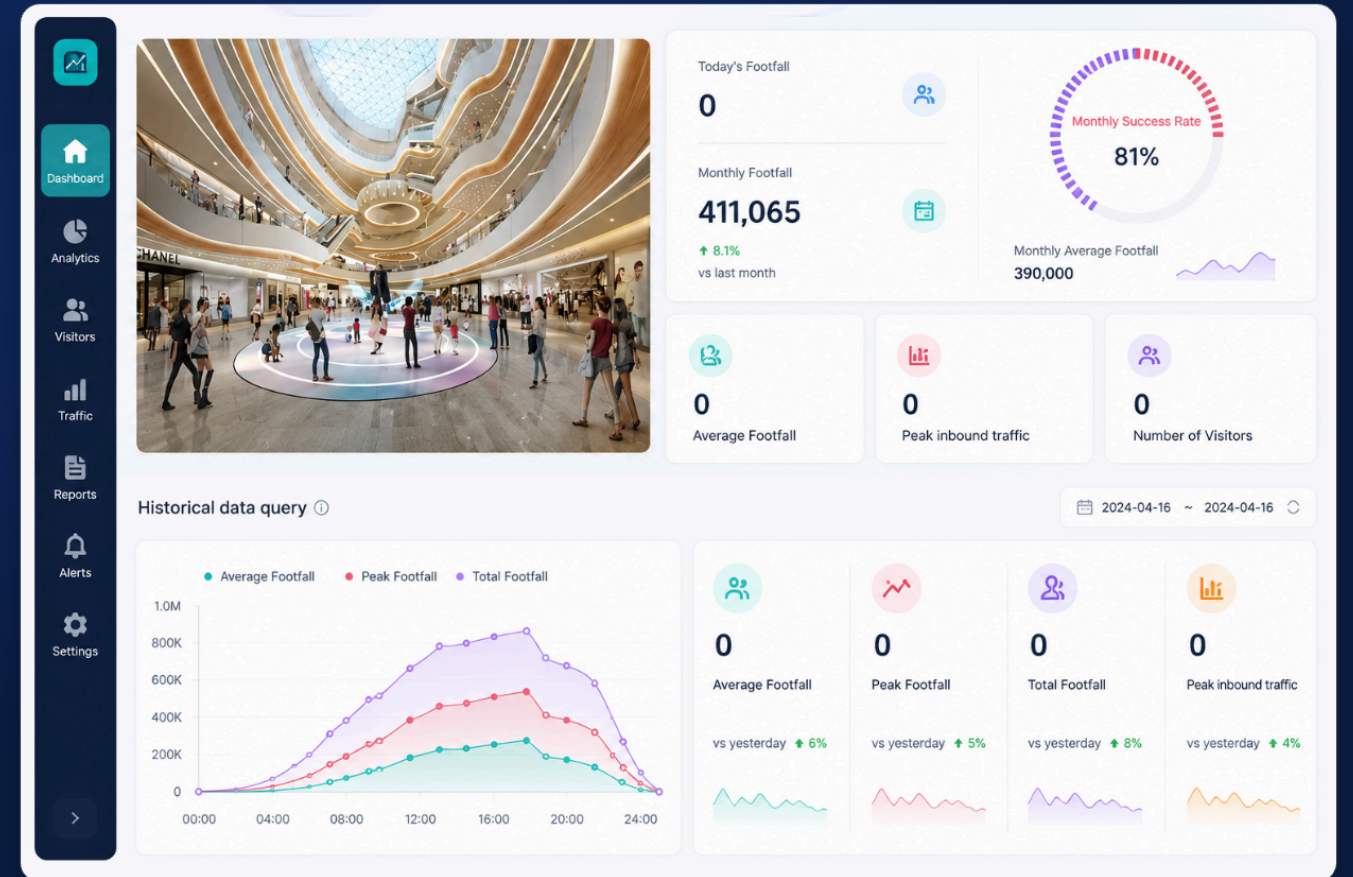

kamiVision

INTRODUCING

kamiEnterprise.

AI on the cameras you already have.

The same Vision AI we've trusted in millions of homes and senior-living communities — now built for retail.

— THE PLATFORM · THREE MODULES, ONE SYSTEM

One platform on the cameras you already have.

01

CONSUMER IQ

Read your floor.

Footfall · Conversion · Dwell · Demographics (opt-in)

Footfall & conversion

Dwell · demographics (opt-in)

Queue · fitting room

Heatmap & journeys

02

GUARDIAN IQ

Protect your store.

Shrink · SCO exceptions · Restricted zones · Forensic search

Shrink reduction

Self-checkout exceptions

Restricted-zone alerts

Forensic search · no biometric ID

03

PERFORMANCE HUB

Like-for-like · Benchmarks · Custom KPIs · APIs

Like-for-like rollups

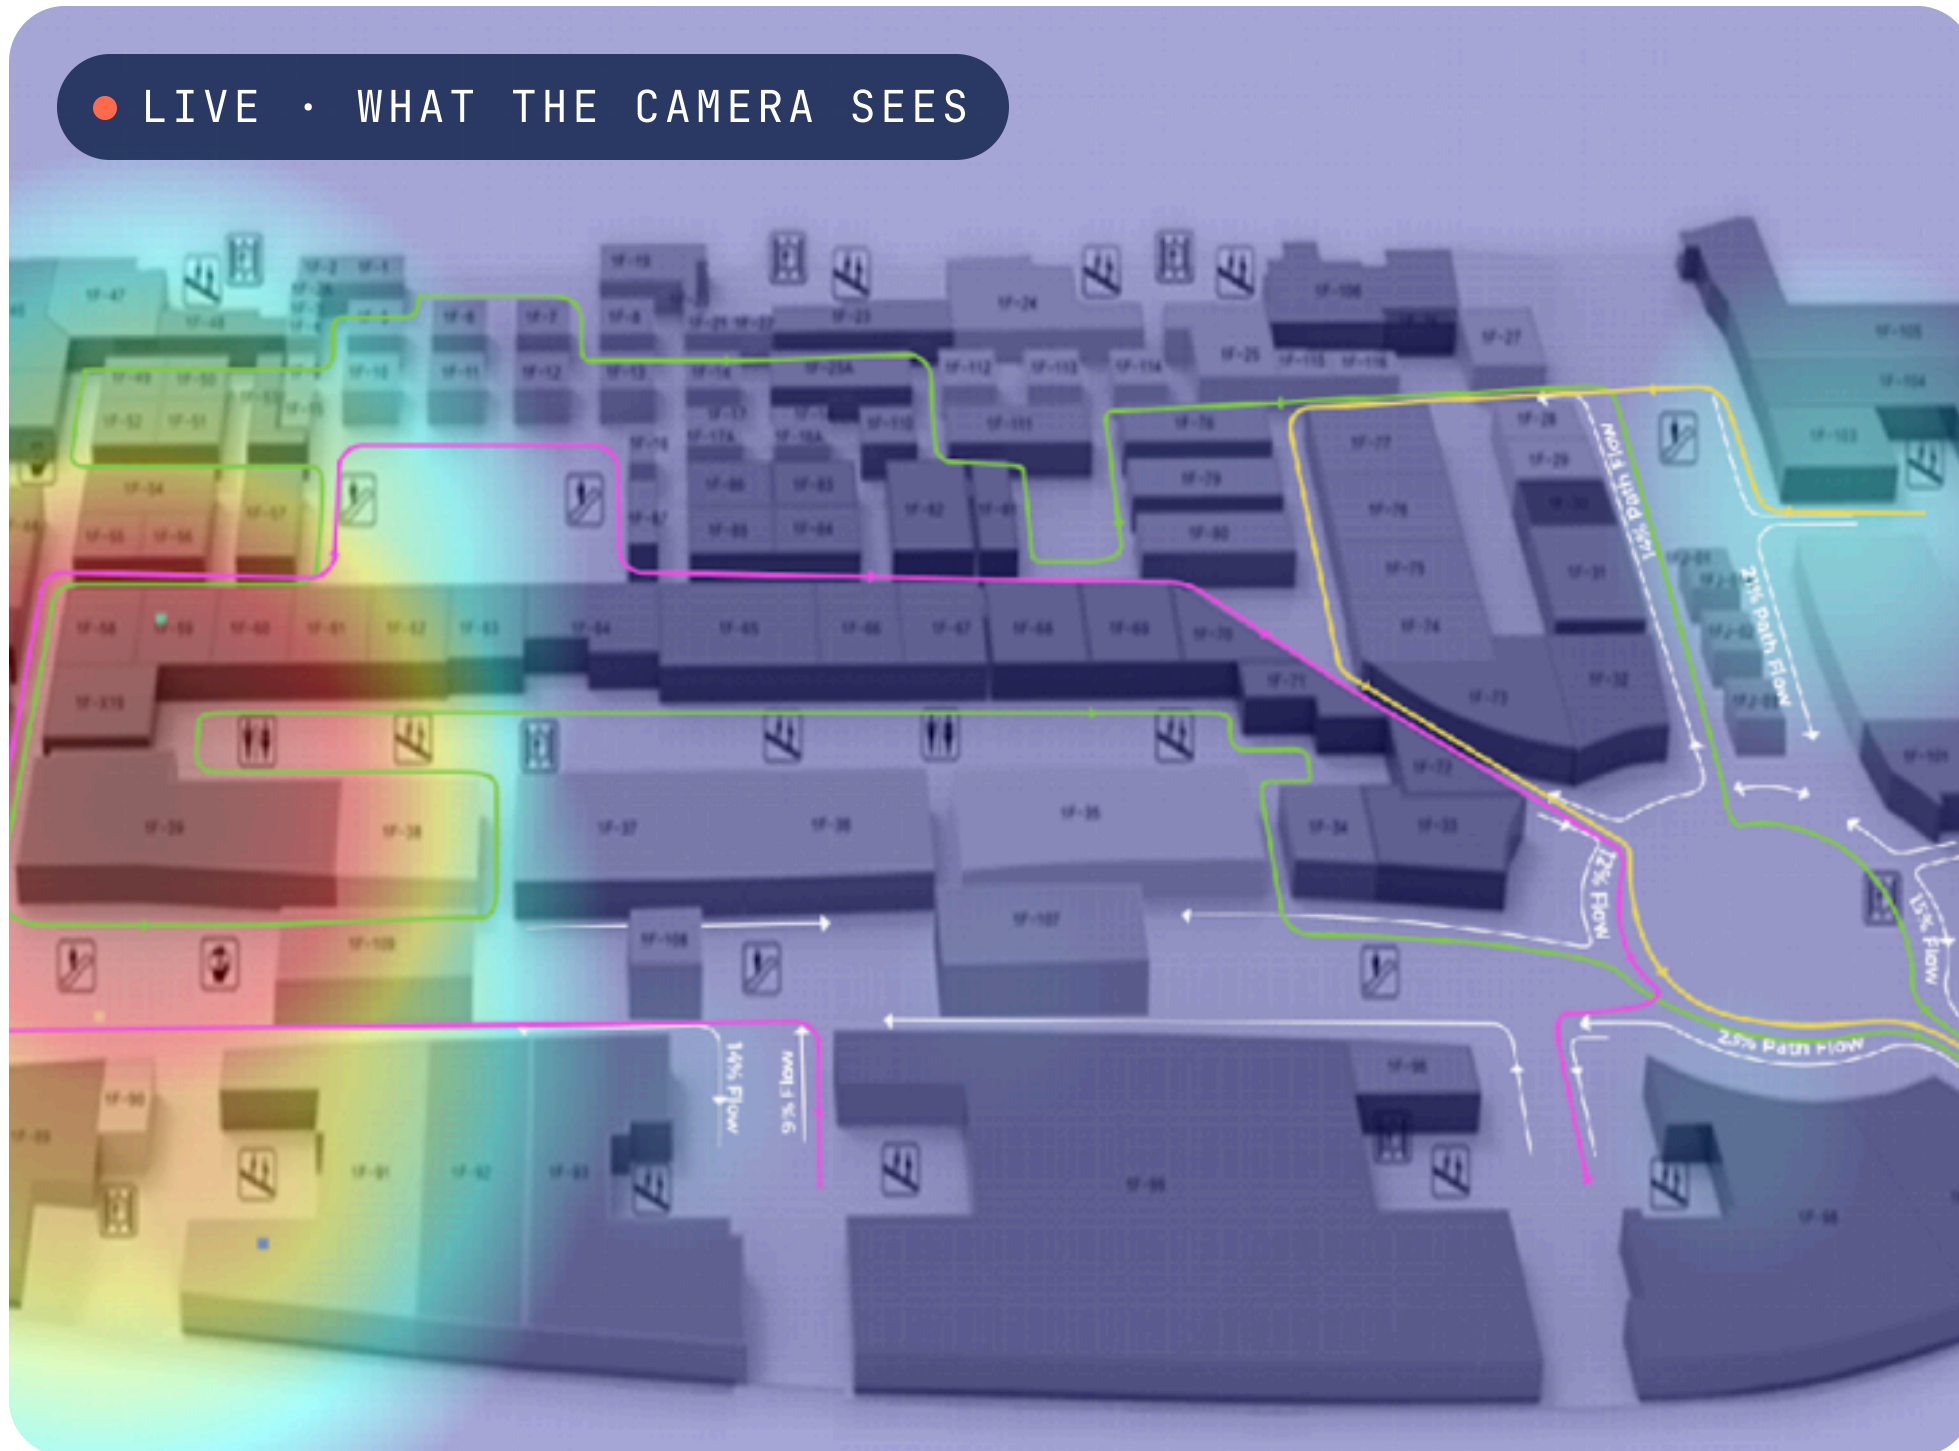

Vertical benchmarks

Custom KPI builder

Open API & exports

— MODULE 01 · CONSUMER IQ

● LIVE · WHAT THE CAMERA SEES

Read your floor.

Every visit becomes a signal — footfall, conversion, dwell and queue, read off the cameras already on your ceiling.
